

## Cell Marque™ Tissue Diagnostics

# GO GREENER in your lab

## Safer for you, kinder to the planet

Improve the environmental impacts of clinical testing while reducing time and cost in your lab. MilliporeSigma offers a growing portfolio of greener alternative products specialized for use in the everyday lab. We strive to ensure that these safer formulations of routine reagents maintain quality and efficacy, so that your results are not compromised.

### 3M™ Novec™ 7000 Engineered Fluid

SHH0001

**Application:** Cryofreezing solution

- Low global warming potential (GWP)
- Zero ozone depletion potential (ODP)
- Non-corrosive, low toxicity, non-flammable

### 3M™ Novec™ 7100 Engineered Fluid

SHH0002

**Application:** Cleansing and rinsing agent. Useful for many industrial and specialty solvent applications.

- Low global warming potential (GWP)
- Zero ozone depletion potential (ODP)
- Non-conductive, low toxicity, non-flammable

### Neo-Clear® Xylene Substitute\*

109843 — CE-certified IVD product

**Application:** Xylene substitute for microscopy

- Less toxic compared to xylene
- Lower evaporation rate compared to xylene
- Virtually odorless. Inhalation risks are low.

### Additional Greener Alternatives

Product Name	Product #
DPX® new, non-aqueous mounting medium*	100579
Formalin-Free Fixative, Accustain™	A5472
Gram-color modified, phenol-free	101603
Tb-Fluor, phenol-free	101597
Xylene Substitute	A5597

\*Neo-Clear can not be used together with DPX.

The life science business of Merck KGaA, Darmstadt, Germany operates as MilliporeSigma in the U.S. and Canada.

## Reduce Waste with "Bulk" Sizes

Choosing bulk can help with your lab's growing needs while keeping costs low, and minimizing waste. Join the many laboratory heroes who've already made the switch to these single-lot products. With over 50 Cell Marque™ antibodies offered in economical 25 mL sizes, you can cut validation efforts, reduce shipping costs, and minimize your carbon footprint... **Choose Bulk Today!**

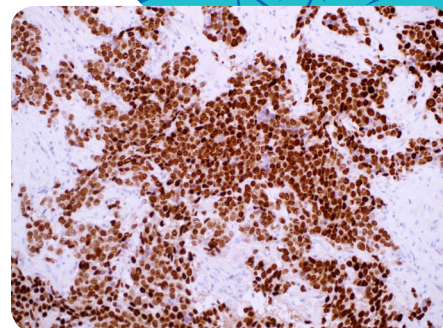

### Top 25 mL Products

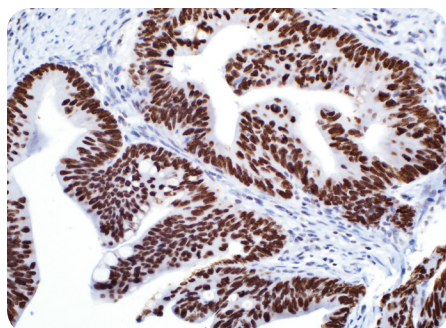

SOX-10 (EP268)

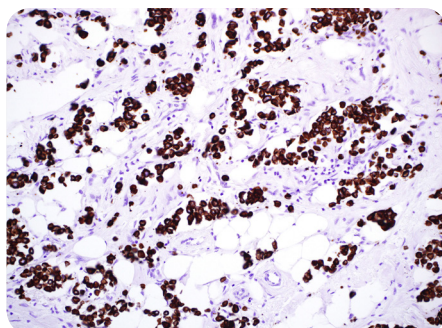

GATA3 (L50-823)

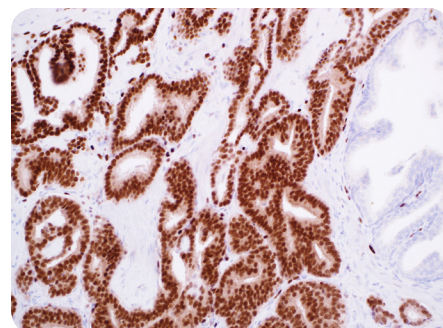

NKX3.1 (EP356)

SATB2 (EP281)

Cytokeratin (CAM5.2)

ERG (EP111)

### Additional 25 mL Products

H. pylori (polyclonal)

CD138/syndecan-1 (B-A38)

Cytokeratin 7 (OV-TL 12/30)

and many more...

Cytokeratin 20 (Ks20.8)

CK Cocktail (AE1 & AE3)

MLH1 (G168-728)

MSH2 (G219-1129)

MSH6 (44)

PMS2 (MRQ-28)
